

Intimate Care

Aim:

When providing intimate care Venture Kids will always endeavour to ensure that the child's safety, dignity and privacy are maintained at all times.

'Intimate care' covers any task that involves the washing, touching or carrying out a procedure to intimate personal areas and is associated with bodily functions and personal hygiene, including, toileting, washing, dressing, and menstrual care.

Procedure:

- Staff at **Venture Kids** who provide intimate care will do so in a professional manner.
- Staff are aware of safeguarding issues and will have relevant training (eg: health and safety, child protection,) before providing intimate care.
- No child should suffer distress or pain as a result of receiving intimate care.
- Staff will work in partnership with parents or carers to provide care appropriate to the needs of the individual child and together will produce a care plan.

The care plan will set out:

- What care is required
- Number of staff needed to carry out the task (if more than one person is required, reasons will be documented)
- Additional equipment required
- Child's preferred means of communication (eg verbal, visual)
- Child's level of ability - what tasks they are able to carry out by themselves

Best practice

- When intimate care is given, the member of staff will explain to the child each task that is carried out, and the reasons for it.
- Staff will encourage children to do as much for themselves as they can.
- If a child requires intimate care on a regular basis, it is good practice for two members of staff to share the care between them. In this way the child is less likely to become overly dependent on a single member of staff, and to become distressed if their usual carer is occasionally unavailable.
- However, parents' views on the number of staff providing personal care to their child must also be taken into consideration - some children may simply be unable to cope with more than one carer.
- We have policies in place that promote safe recruitment, as well as having sound staff supervision, safeguarding and intimate care procedures; together these ensure that, should a child need consistent care from one member of staff, the child's safety and well-being will not be compromised.
- Should a child have soiled themselves, Venture Kids has a supply of underwear and changes of clothes for such emergencies.

Protecting children

- If a member of staff is concerned about any physical changes to a child, such as marks, bruises, soreness etc, they will inform the manager or the Club's designated child protection officer immediately.
- The procedures set out in the **Safeguarding Children** policy will be implemented.
- Should a child become unhappy about being cared for by a particular member of staff, the manager will investigate and record any findings.
- These will be discussed with the child's parents or carers in order to resolve the issue. If necessary, the manager will seek advice from outside agencies.
- If a child makes an allegation against a member of staff, the procedure set out in the **Safeguarding Children** policy will be followed.

Dealing with blood and body fluids

- Bodily fluids will be dealt with by a member of staff with full PPE.
- Blood, vomit, urine and faeces will be cleaned up immediately and disposed of safely by double bagging the waste and removing it from the premises.
- Soiled children's clothing will be double bagged to go home - staff will not rinse it.
- Those children who have expelled the bodily fluids will be isolated in a well ventilated area until, their parents arrive.
- Children will be kept away from the affected area until the incident has been dealt with fully.
- Staff at Venture Kids will maintain high standards of personal hygiene, and will take all practicable steps to prevent and control the spread of infection.
